

Notes From The Prof:

Big news for Victory riders today! Mustang now has seats for Victory's baggers. If you are a Powersports University Mustang “Seats 101” grad you will want to check out the video link or read Mustang’s official press release here:

Already well known for making seats for most cruisers on the market since 1980, Mustang has announced a win-win deal for fans of Victory motorcycles. The New England craftsmen take pride in making seats for the “other American motorcycle” and have introduced saddles for the Victory Cross Roads, Cross Country and Hard-Ball baggers.

“Mustang’s mantra has been ‘it’s all about the Ride,’ and we’re proud to have expanded our offerings for the new Victory baggers,” says Mustang Director of Sales Steve Veltri. He notes that Mustang already offers seats for Victory’s Vegas, Kingpin and 8-Balls. According to Victory, the new bikes bring bad ass style and attitude to the bagger niche. “However, being a bad ass doesn’t mean you can’t have a comfortable seat,” quips Veltri.

Mustang’s DayTripper™ and Wide Touring seats for all three of these new Victory models offer the added benefit of being lower than stock without sacrificing comfort. The DayTripper sits ½” lower than the stock seat while the Wide Touring seat is ¼” lower. By making the nose of the seat narrower than stock, it makes it easier for riders to plant their feet firmly on the ground. The

“PBR” passenger backrest angles the passenger's upper back forward for more vertical support and increased comfort.

Combined with Mustang's proprietary polyurethane foam material and baseplate, the result is a seat guaranteed to deliver all-day comfort. To further help alleviate back pain during long days in the saddle, Mustang offers fully adjustable, easily removable driver's backrests.

Features:

- Direct bolt-on for Victory Baggers
- The ergonomic shape keeps riders firmly and comfortably seated
- Expanded vinyl cover stands up to the elements
- Controlled density polyurethane foam makes for all-day riding comfort

The MSRP for the DayTripper starts at \$359 and the Wide Touring starts at \$489.
